Phalacrocorax lucidus
whitebreasted wormorant

A photograph of an African fish eagle in flight, captured from a low angle looking up. The eagle's wings are spread wide, showing dark brown feathers with light-colored patches near the tips. Its body is white, and its head is turned slightly to the left, showing a yellow eye and a hooked beak. The background consists of out-of-focus green and brown foliage.

A close-up photograph of an African bush elephant's head and front legs. The elephant is facing slightly to the right. Its large ears are spread wide, and its tusks are visible. It is standing in tall, dry, golden-brown grass. In the background, there are blurred green and brown bushes and trees, suggesting a savanna or woodland environment.

A photograph of two white rhinoceroses in a natural habitat. One rhino is in the foreground on the left, facing right, while the other is further back on the right, also facing right. They are surrounded by dry, yellowish-brown grass and scattered rocks. In the background, there is a line of trees with some green leaves and others with brown, autumn-like foliage.

Ceratotherium simum
white / square-lipped rhinoceros

A large, leafless baobab tree stands prominently against a clear blue sky. The tree has a thick, textured trunk and a sprawling canopy of bare branches that spread out in all directions. The ground in the foreground is covered with dry, brown grass. In the background, there are some smaller, green trees and shrubs.

Adansonia digitata
baobab / monkey-bread tree

A close-up photograph of a leopard lying low in a field of tall, golden-brown grass. The leopard's coat is a rich yellow with dark, blackish-brown spots. It is looking directly at the camera with a focused expression. The lighting is warm, suggesting either sunrise or sunset, which casts a golden glow over the scene.

Tragelaphus strepsiceros

greater kudu

A photograph of a male and female lion resting together in a dry, sunlit environment. The male lion is on the left, facing right, with a large, dark mane. The female lion is on the right, facing left, with a smaller, reddish-brown mane. They are lying on a bed of dry, brown grass and fallen leaves. In the background, there are several tall, dry trees and some low-lying shrubs. The lighting suggests a bright, sunny day.

A close-up photograph of a waterbuck (Kobus ellipsiprymnus) grazing in a wetland. The animal is brown with a white patch on its ear and a white blaze on its forehead. It has long, spiraling horns. The background shows a grassy hillside and a body of water with green aquatic plants.

alpgehnuss.ch

Kobus ellipsiprymnus

waterbuck

A photograph of a sunset over a calm body of water. The sky is a gradient from deep orange at the horizon to a darker red-orange above. The sun is a bright white circle at the top center. Its reflection is a vertical streak of light on the water's surface. In the foreground, dark silhouettes of bare tree branches protrude from the water. The overall atmosphere is peaceful and scenic.

Panthera pardus – leopard

A dark landscape at night, possibly a field or scrubland. In the background, a large area is engulfed in a bright orange glow, likely from a bushfire. The foreground is mostly dark, with some faint lights visible in the distance.

alpgehnuss.ch
alpgehnuss.ch

Bushfire, out of control

A photograph of the Victoria Falls waterfall in Africa. A vibrant rainbow arches from the left foreground across the center of the frame towards the right, where the falls meet the misty spray. The falls themselves are a massive, turbulent cascade of water. In the foreground, a rocky outcrop with moss and small plants is visible. A faint watermark for "alpgehnuss.ch" is repeated twice across the upper portion of the image.
