Windhoek – railway nostalgia

Windhoek – left marks by the Hohenzollerns

alpgehnuss.ch

Windhoek

Lutheran Christ church

A low-angle photograph of a traditional multi-bladed wind pump. The structure is made of metal and wood, featuring a tall lattice tower and a large circular wheel with many curved blades. A wooden platform is attached to the tower. The background is a clear, bright blue sky. A faint, semi-transparent watermark is visible in the upper left quadrant of the image.

Aloe dichotoma

quiver tree

A close-up photograph of Schinus molle branches. The branches are covered with numerous small, round berries in various stages of ripeness, ranging from bright red to pale pink and white. The leaves are green and have a pinnate structure. The background is a soft-focus view of more branches and a clear blue sky.

Namib Naukluft NP

Sussusvlei

An aerial photograph showing a vast, golden sand dune landscape. A prominent, steep sand dune wall runs diagonally from the upper left towards the center, separating the ocean from the inland dunes. The ocean is visible on the left, with white surf breaking against the base of the dune. The sky is a clear, pale blue. The dunes to the right of the wall are rolling and undulating, with some darker patches of vegetation or rock visible.

Lithops ruschiorum

An aerial photograph of a vast desert landscape. The foreground shows rugged, layered rock formations in shades of grey and tan. A dense band of green shrubs and small trees runs horizontally across the middle ground. Beyond this, the terrain transitions into a wide, flat expanse of orange-brown sand dunes that stretch towards the horizon under a clear blue sky.

Welwitschia mirabilis m/f

A close-up photograph of two welwitschia bugs (Probergrothius sexpunctatis) on a pine cone. The bugs have a yellowish-brown body with six distinct black spots on each elytron and red legs. A red, elongated object, possibly a seed or another insect, is visible near the bottom left. The background is blurred, showing more of the pine cone and some green foliage.

A photograph of three black-faced impalas (Aepyceros melampus petersi) in a natural habitat. The animals are standing on a rocky, dry ground with sparse vegetation. One impala is in the foreground, facing left. Two others are behind it, one slightly to the right and one further back on the right. The background consists of dense green bushes and trees. A watermark 'alpgehnuss.ch' is visible in the upper left area.

A photograph of two giraffes standing in a savanna landscape at sunset. The giraffes are silhouetted against the bright orange and yellow sky. Their long necks and legs are reflected in a pool of water in the foreground. The background shows a line of trees and a rocky ground.

alpgehnuss.ch

Giraffa camelopardalis

giraffe

A photograph of a herd of African elephants gathered around a watering hole in a savanna. Several elephants are standing on the rocky bank, while others are partially submerged in the water. The scene is reflected in the calm water. A large tree stands on the bank, and the background shows a hilly landscape with sparse vegetation. A watermark 'alpgehnuss.ch' is visible in the upper left area of the image.
