ad-Dachiliyya;

Al-Hamra, trad. Wohnhaus

The image shows the interior of a traditional Al-Hamra house. A large, white-plastered pillar stands on the left. The ceiling is made of dark wooden beams. A bright light source, possibly a window or a lamp, creates a strong beam of light that illuminates the pillar and the surrounding area. In the background, several small, round, earthenware pots are hanging from a wooden structure. The overall atmosphere is warm and rustic.

An aerial photograph of a vast, flat, light-colored salt flat. In the center, there is a prominent, rounded salt dome with a textured, crystalline surface. The surrounding flat area shows subtle variations in color and texture, with some darker patches and faint linear features. A small, dark, rectangular object is visible in the upper right corner.
