Sunrise behind Kilimanjaro Massif

A scenic view of a mountain peak silhouetted against a sunset sky. The foreground shows dark, rocky terrain. Below the peak, a vast sea of white clouds fills the valley. The sky transitions from a pale blue at the top to a warm orange and yellow near the horizon. A thin cable or wire is visible on the right side of the frame.

Summit of Socialist Peak, 4566m

A photograph of a steep, dark, rocky mountain slope under a blue sky with scattered white clouds. The mountain face shows distinct horizontal geological strata. A few small figures of people are visible on a path on the right side of the slope. A watermark 'alpgehnuss.ch' is visible in the upper left area of the image.

A close-up photograph of several Burchell's zebras in a savanna environment. The zebras are characterized by their bold black and white vertical stripes. In the foreground, a zebra's head is turned slightly to the right. Behind it, another zebra's head is visible, and to the right, the back of a third zebra is shown. The background is a soft-focus landscape with dry grass and sparse trees under warm, golden light.
